Microsoft Azure Complete Training Course Overview:

Welcome to the "Microsoft Azure Complete Training Course," a comprehensive journey designed to turn you into a proficient Microsoft Azure Administrator. We start with Microsoft Azure fundamentals to give you a solid foundation and progress into advanced topics, including Azure Resource Manager, Azure DevOps Project Management Tools, Azure Cost Management Tools, and more. We will explore the pros and cons of Microsoft Azure, allowing you to make informed decisions in your role. With our focus on hands-on training, you'll get experience in Azure Configuration Management Tools, Azure Core Services, and you'll even get to play around with Azure Cosmos DB. By the end of this course, you'll be proficient in Azure Management Tools and understand the Azure DNS Technology Stack to secure and scale your applications.

Target Audience:

- Cloud Engineers
- DevOps Engineers
- System Administrators
- Database Administrators

This course will help you understand what Microsoft Azure is and how to become an effective Microsoft Azure Administrator, mastering Azure Resource Manager and Azure Cost Management Tools.

Targeted Organizational Departments:

- IT Operations
- Software Development
- Database Management
- Cybersecurity

Considering the focus on Microsoft Azure fundamentals, Azure DevOps Project Management Tools, and Azure Resource Manager, these departments stand to gain the most.

Targeted Industries:

- Tech Companies
