Mastering Business Data Analytics: IIBA-CBDA Exam-Prep Course Overview:

Organizations that effectively harness their data dramatically outperform their competitors. The "Mastering Business Data Analytics: IIBA-CBDA Exam-Prep Course" dives deep into this competitive edge, merging technical proficiency with organizational acumen to drive better business decisions. This course is not just about learning to collect and analyze data; it's about knowing when to do it, how to interpret the results, and ensuring these insights lead to real business improvements.

Endorsed by the International Institute of Business Analysis® IIBA®, Throughout this comprehensive training, participants will explore the nuances of business data analytics as distinct from related fields such as data science and business analysis.

We will cover essential topics such as defining research questions for analytics projects, organizing data collection, analyzing results effectively, and communicating findings to decision-makers. Additionally, the course will provide actionable insights on how to facilitate change based on analytic results and scale analytics capabilities within an organization.

This course is particularly valuable for line managers of analytics teams, project managers overseeing projects with analytics components, and business analysts involved in analytics initiatives. By focusing on both the strategic and practical aspects of business data analytics, this course ensures participants are equipped to lead data-driven projects that yield tangible business outcomes.

Target Audience:

- Business Analysts working on data analytics initiatives
- Project Managers managing data projects
- Line Managers managing data teams
- IT Professionals
- Data Analysts
- Anyone preparing for the IIBA®-CBDA exam

Targeted Organizational Departments:

- Information Technology
- Marketing
- Strategic Planning
- Operations

Targeted Industries:

- Finance
- Healthcare
- Retail
- Manufacturing

Course Offerings:

By the end of the Course, participants will be able to:

- Gain a comprehensive understanding of what business data analytics entails and how it differs from other data-related disciplines. **Understand Business Data Analytics:** •
- Learn how to articulate and define effective research questions that guide the analytics initiative. **Define Research Questions:** •
- Master the organizational and technical aspects of the data collection process, ensuring the quality and relevance of data for the analytics projects. **Collect Data:** •
- Develop the ability to execute detailed data analysis using advanced analytical tools and methodologies. **Perform Analysis:** •
- Acquire skills in interpreting the results of data analysis and translating these findings into actionable insights. **Interpret Analysis Results:** •
- Learn strategies to communicate analytical findings effectively to decision-makers to influence business strategies and outcomes. **Influence Decision-Making:** •
- Explore methods to expand and scale the analytics capabilities within an organization to foster a data-driven culture. **Scale Analytics Capability:** •

Training Methodology:

The training methodology for the "Mastering Business Data Analytics: IIBA-CBDA Exam-Prep Course" combines interactive lectures, hands-on workshops, and group discussions to maximize learning outcomes. Participants will benefit from exploratory data analysis tutorials, real-time feedback sessions, and case studies focusing on hypothesis testing in analytics and data visualization. Each module is designed to build on the skills learned in the previous one, ensuring a cohesive and comprehensive understanding of business data analytics.

Course Toolbox:

- Course Workbooks
- Online Resource Subscriptions
- Data Sets for Hands-on Practice
- Checklists and Templates for Data Analysis

Course Agenda:

Day 1: Introduction to Business Data Analytics

- Understand the core concepts and the importance of data Topic 1: What is Business Data Analytics analytics in business. •
- Explore the stages of the data analytics cycle from data Topic 2: The Business Data Analytics Cycle preparation to interpretation. •
- Define what businesses aim to achieve with data Topic 3: The Business Data Analytics Objectives analytics. •
- Discuss the differences and intersections of Topic 4: Business Analysis vs Business Data Analytics business analysis and data analytics. •
- Learn the fundamental principles of probability in data Topic 5: Technique: Understanding Probability analysis. •
- Apply probability trees to break down and calculate the likelihood of Topic 6: Technique: Probability Tree complex events. •
- Examine a real-world scenario to understand the application of Topic 7: Case Study: Context of Analysis data analytics techniques. •
- Discuss the day's learnings and how they apply to real-world scenarios. Reflection & Review: •

Day 2: Identifying Research, Source, and Analyzing Data

- Learn how to define and scope effective Topic 1: Defining Research Questions and Business Opportunities research questions and articulate business problems or opportunities that data analytics can address. •
- Techniques to identify and analyze Topic 2: Stakeholder Analysis and Business Model Visualization stakeholder needs using the Business Model Canvas and stakeholder analysis methods. •

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
