دورة تدريبية في إتقان نظم المعلومات الجغرافية (GIS)

الرجع: 36266_20053 التاريخ: 20 - 24 Jul 2026 الموقع: مدريد الرسوم: Euro 5700

Course Overview:

This training course is an intensive program designed to equip participants with complete knowledge and practical skills in Geographic Information Systems. This course delves deep into the fundamentals of GIS, exploring GIScience, GIS applications, spatial data, and geoinformation. Participants will gain a solid understanding of geographic phenomena, spatial analysis, and the management of spatial databases. With a focus on data management in GIS, geospatial data types, and geographic representations, this training course covers essential aspects of GIS software, spatial data infrastructure, and GIS architecture. Attendees will also learn about the latest GIS hardware and software trends, database management systems in GIS, and advanced techniques for spatial query and analysis. The course emphasizes the importance of spatial data presentation, GIS and DBMS integration, and spatial referencing and positioning. Topics such as map projections, coordinate systems in GIS, and satellite-based positioning will be covered in detail. The training also includes modules on data entry in GIS, spatial data input, and ensuring data quality in GIS. By mastering accuracy and precision in GIS, participants will be adept at GIS data preparation, spatial data analysis, and utilizing GIS analytical capabilities. Additionally, the course will address overlay functions in GIS, network analysis, error propagation, and advanced GIS data visualization strategies. The complete curriculum ensures that participants are proficient in mapping techniques, including mapping qualitative and quantitative data, terrain elevation, and time series, culminating in effective map dissemination.

Target Audience:

- GIS Analysts
- Geospatial Data Scientists
- Urban Planners
- Environmental Consultants
- Surveyors
- Cartographers
- IT Professionals in GIS
- Government and Municipal Employees
- Academic Researchers
- Civil Engineers
- Real Estate Developers
- Forestry and Natural Resource Managers
- Emergency Management Personnel

Targeted Organizational Departments:

- GIS Departments
- Urban Planning and Development
- Environmental Management
- Surveying and Mapping
- IT and Data Management
- Engineering and Construction
- Natural Resource Management
- Emergency Services

Targeted Industries:

- Urban Planning and Development
- Environmental Management
- Oil and Gas
- Telecommunications
- Transportation and Logistics
- Real Estate
- Agriculture
- Forestry
- Mining
- Public Health
- Emergency Management
- Government entities

Course Offerings:

By the end of this course, participants will be able to:

- Define and explain the fundamentals of GIS and GIScience.
- Utilize various GIS applications for spatial data analysis and geoinformation management.
- Manage and organize spatial databases effectively.
- Apply spatial data infrastructure and GIS architecture in real-world scenarios.
- Implement advanced spatial query, analysis, and presentation techniques.
- Ensure data quality in GIS through accurate data entry and preparation.
- Conduct complete spatial data analysis and utilize GIS analytical capabilities.
- Perform network analysis and handle error propagation in GIS.
- Create and disseminate detailed and accurate maps using advanced GIS data visualization strategies.

Training Methodology:

The course employs a blend of interactive training methodologies to ensure a complete learning experience. Participants will engage in case studies that provide real-world GIS applications, enhancing their understanding of spatial data and geoinformation. Group work and collaborative projects will foster teamwork and problem-solving skills. Interactive sessions will include hands-on exercises with GIS software, allowing participants to apply theoretical knowledge practically. Feedback sessions will be conducted regularly to address any learning gaps and reinforce key concepts.

Course Toolbox:

- complete Workbooks
- Reading Materials and Academic Articles
- Case Study Examples

Course Agenda:

Day 1: Introduction to GIS and Fundamentals

- The Nature of GIS
- Topic 1: Defining GIS
- Topic 2: GIS Systems, GIScience, and GIS Applications
- Topic 3: Spatial Data and Geoinformation
- Topic 4: The Real World and Representations of It
- Topic 5: Models and Modelling
- Topic 6: Key Concepts and Applications in GIS
- Reflection & Review

Day 2: Geographic Information and Spatial Data Types

- Geographic Phenomena: Defining and Types
- Topic 1: Geographic Fields and Objects
- Topic 2: Boundaries
- Topic 3: Computer Representations of Geographic Information
- Topic 4: Regular and Irregular Tessellations
- Topic 5: Vector Representations, Topology, and Spatial Relationships
- Topic 6: Understanding Geographic Information and Spatial Data
- Reflection & Review

Day 3: Data Management and Processing Systems

- Hardware and Software Trends in GIS
- Topic 1: GIS Software
- Topic 2: GIS Architecture and Functionality
- Topic 3: Spatial Data Infrastructure SDI
- Topic 4: Stages of Spatial Data Handling
- Topic 5: Spatial Data Capture, Storage, and Maintenance
- Topic 6: Effective Data Management in GIS
- Reflection & Review

Day 4: Spatial Referencing and Positioning

- Spatial Referencing and Reference Surfaces for MappingTopic 1: •
- Coordinate Systems in GISTopic 2: •
- Map ProjectionsTopic 3: •
- Coordinate TransformationsTopic 4: •
- Satellite-Based Positioning: Absolute and Relative PositioningTopic 5: •
- Positioning Technology: Errors, Network, and MeasurementsTopic 6: •
- Mastering Spatial Referencing and PositioningReflection & Review: •

Day 5: Data Entry, Quality, and Visualization

- Spatial Data Input: Direct and Indirect CaptureTopic 1: •
- Obtaining Spatial Data from Other SourcesTopic 2: •
- Data Quality in GIS: Accuracy, Precision, and ConsistencyTopic 3: •
- Data Preparation: Checks, Repairs, and Combining Multiple SourcesTopic 4: •
- Spatial Data Analysis: Classification, Overlay Functions, and Network AnalysisTopic 5: •
- GIS Data Visualization: Cartographic Toolbox and Mapping TechniquesTopic 6: •
- complete Data Quality and Visualization in GISReflection & Review: •

How This Course is Different from Other GIS Courses:

The course stands out from other GIS courses due to its complete and practical approach to learning. Unlike standard courses, this program provides an in-depth exploration of both GIS fundamentals and advanced techniques. Participants will benefit from a curriculum that integrates GIScience with real-world GIS applications, ensuring they are well-equipped to handle complex spatial data and geoinformation challenges. Additionally, the training methodologies used in this course, such as interactive sessions, case studies, and group work, create an engaging and dynamic learning environment. This course also includes advanced topics like spatial data infrastructure, GIS architecture, and the latest trends in GIS hardware and software, setting it apart from other training programs. With a focus on data quality, accuracy, and precision, participants will gain the expertise needed to excel in GIS analysis and data visualization. Overall, this course offers a unique blend of theoretical knowledge and practical skills, making it an essential training program for anyone looking to master Geographic Information Systems.

فئات الدورات التدريبية

HR TRAINING & DEVELOPMENT

دورات إدارة و تطوير الموارد البشرية

دورات إدارة و تحليل البيانات ودورات علم البيانات

دورات إدارة الجودة وتطوير العمليات

الدورات التدريبية في مجال البيئة والاستدامة

دورات التسويق وإدارة علاقات العملاء وإدارة المبيعات

دورات التدريب القانوني والمشتريات والتعاقدات

دورات الاتصال الجماهيري و السياسات والعلاقات العامة

دورات النظم السيبراني ودورات تقنية المعلومات

دورات الصيانة ودورات المجالات الهندسية المتنوعة

دورات الصحة والسلامة والأمن المهني

دورات السكرتارية و إدارة المكاتب

دورات الحوكمة وإدارة المخاطر والامتثال

فئات الدورات التدريبية

دورات معتمدة بشهادة CPD

دورات في مجالات القيادة والإدارة

دورات المهارات الشخصية وتطوير الذات

دورات المحاسبة و التمويل و دورات الإدارة
الهائية

دورات مكتب إدارة المشاريع وإدارة المشاريع
الرشيقية

دورات معتمدة من قبل هيئات دولية

مدن التدريب

اسطنبول - تركيا

أمستردام - هولندا

أكرا - غانا

أثينا - اليونان

الرياض - المملكة العربية السعودية

الدوحة - قطر

الدار البيضاء - المغرب

الجبيل - المملكة العربية السعودية

باريس - فرنسا

المنامة - مملكة البحرين

الكويت - الكويت

القاهرة - مصر

براغ - جمهورية التشيك

بانكوك - تايلند

بالي - جمهورية إندونيسيا

باكو - أذربيجان

مدن التدريب

جاكرتا - جمهورية اندونيسيا

تبليسي - جورجيا

بوكيت - تايلاند

برشلونة - إسبانيا

روما - إيطاليا

دبي - الإمارات العربية المتحدة

جوهانسبرغ - جنوب إفريقيا

جنيف - سويسرا

شرم الشيخ - مصر

سيول - كوريا الجنوبية

سان دييغو - الولايات المتحدة الأمريكية

زنجبار - تنزانيا

طوكيو - اليابان

طشقند - أوزبكستان

طرابزون - تركيا

شيكاغو - الولايات المتحدة الأمريكية

مدن التدريب

كوالالمبور - ماليزيا

فيينا - النمسا

عن بعد - منصة زووم

عمان - المملكة الأردنية الهاشمية

ماربيا - اسبانيا

لندن - المملكة المتحدة

لانكاوي - ماليزيا

كيب تاون - جنوب إفريقيا

ميلان - إيطاليا

مونترنو - سويسرا

مسقط - سلطنة عمان

مدريد - إسبانيا

نيس - فرنسا

نيروبي - كينيا

ميونخ - ألمانيا

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
