Course Offerings:

By the end of this course, participants will be able to:

- Design and implement project finance structures.
- Evaluate and select the best project funding alternatives.
- Analyze financial ratios such as DSCR for project viability.
- Apply risk management techniques to reduce project finance risks.
- Structure investment agreements with terms and financial covenants.
- Understand investor profiles and criteria for project funding.
- Manage both secured and unsecured debt in project finance.
- Utilize financial modelling to assess project finance performance.

Training Methodology:

This course employs a variety of interactive training methodologies to maximize participant engagement and learning. Case studies on real-life projects, such as the N4 toll road, will be used to illustrate project finance structures and funding alternatives. Group discussions will focus on analysing investor profiles and risk management strategies. Interactive sessions will provide hands-on experience in constructing project finance agreements and evaluating financial ratios such as the Debt Service Coverage Ratio DSCR.
