FAQ

- What specific qualifications or prerequisites are needed for participants before enrolling in the course? •

This course is designed for individuals with basic JIRA administration knowledge. Prior experience in JIRA configuration, issue tracking, and workflows is recommended but not required.

How long is each day's session, and is there a total number of hours required for the •
entire course?

Each day's session runs 4-5 hours, with breaks and interactive activities. The total course duration is 20-25 hours
over five days.

What are the best practices for JIRA workflow automation to reduce manual tasks? •

Some best practices include using automation rules, leveraging JIRA REST API, and implementing workflow
triggers to minimize manual issue tracking and transitions.

How This Course is Different from Other JIRA Administration Courses

The course is uniquely designed to provide hands-on, real-world expertise beyond standard JIRA training programs. While many courses focus solely on JIRA basics, this program goes deep into JIRA administration, workflow automation, and security configurations to optimize issue tracking and project management.

Unlike traditional JIRA courses, this training includes JIRA workflow customization, JIRA permission schemes, JIRA notification schemes, and JIRA security levels in an interactive, scenario-based format. Participants will learn not just how to configure JIRA, but also how to troubleshoot common administrative issues, scale JIRA for enterprise environments, and integrate JIRA REST API and SOAP API for automation and DevOps workflows.
