Master Network, Endpoint & Cloud Security | SEC410 Training

الرجوع: 72_38506 التاريخ: 20 - 24 Jul 2026 الموقع: دبي - الراسخور: 6500 Road Zayed Sheikh Marriott by Inn Residence

Course Overview:

This course provides foundational knowledge and hands-on skills essential for defending systems and networks. Covering the full scope of modern cybersecurity, SEC410 focuses on security across network, endpoint, and cloud environments. Participants will develop practical expertise in cryptography, OS hardening, access control, security operations, and incident response. The course is mapped directly to the GIAC Security Essentials Certification GSEC.

Target Audience:

- InfoSec professionals
- System and Network Administrators
- IT Support and Helpdesk Staff
- Junior SOC Analysts
- Security Engineers and Technicians

Targeted Departments:

- IT & Cybersecurity
- Security Operations Centers SOC
- Cloud and Network Teams
- Risk Management and Audit
- Compliance and Infrastructure

Course Offerings:

By the end of this course, participants will be able to:

- Understand and apply core cybersecurity principles and defense strategies
- Secure communication using cryptographic methods and tools
- Implement endpoint hardening and user access controls
- Analyze network traffic and secure common protocols
- Respond to incidents using SIEM tools and detection methods
- Securely manage cloud platforms AWS/Azure using best practices
- Prepare for and pass the GIAC GSEC certification exam

Training Methodology:

- Instructor-led sessions
- Hands-on labs and simulations
- Group-based threat modeling and review
- Real-world case studies and cyber hygiene exercises
- Practice quizzes and exam walkthroughs

Course Toolbox:

- Wireshark, PowerShell, Linux CLI
- Sample GSEC practice test
- Secure configuration templates
- SIEM event analysis scenarios
- Cryptographic tools demo

Course Agenda:

Day 1: Cybersecurity Foundations and Cryptography

- Introduction to Cybersecurity and GIAC GSEC Overview Topic 1:
- Core Security Concepts: Threats, CIA Triad, and Controls Topic 2:
- Cryptographic Terminology, Symmetric & Asymmetric Encryption Topic 3:
- Hashing, HMAC, and Digital Certificates Topic 4:
- Authentication Models and Access Control Mechanisms Topic 5:
- Managing Identity and Password Security Topic 6:
- Crypto tools lab and access control scenarios Reflection & Review:

Day 2: Network Security and Protocol Defense

- Networking Basics: IP, TCP/UDP, and Common Attacks Topic 1:
- Network Defense Models: Firewalls, IDS, and Zero Trust Topic 2:
- Secure Protocols: SSH, SSL/TLS, VPN, and DNSSEC Topic 3:
- Web and Email Security: HTTPS, Certificates, SPF, DKIM Topic 4:
- Packet Capture and Protocol Analysis Wireshark Lab Topic 5:
- Network Segmentation and Secure Architecture Topic 6:
- Traffic inspection and protocol hardening Reflection & Review:

Day 3: Endpoint and OS Security Windows & Linux

- Windows Security Fundamentals: GPOs and User Rights Topic 1:
- Linux Security Principles: Permissions, sudo, and Logs Topic 2:
- Secure Configuration and Hardening Techniques Topic 3:
- Endpoint Detection & Response EDR Concepts Topic 4:
- PowerShell and Bash for Security Tasks Topic 5:
- Mobile and Device Security Basics MDM, BYOD Topic 6:
- OS hardening exercises and access audit Reflection & Review:

Day 4: Security Operations and Cloud Fundamentals

- Introduction to SIEM and Log Analysis Techniques Topic 1:
- Cloud Security Principles Shared Responsibility, IAM Topic 2:
- Monitoring and Incident Response Procedures Topic 3:
- Vulnerability Management and Patch Strategy Topic 4:
- Penetration Testing Basics and Exploit Prevention Topic 5:
- Securing Virtual Environments and Cloud Workloads Topic 6:
- SIEM lab and cloud misconfiguration demo Reflection & Review:

Day 5: GSEC Preparation and Career Readiness

- GSEC Exam Strategy and Practice Questions Review Topic 1:
- Mapping Learning to Job Roles and Cybersecurity Tracks Topic 2:
- Developing Enterprise Security Policies and Controls Topic 3:
- Final Hands-on Lab: Network & Endpoint Defense Scenario Topic 4:
- Career Planning: Analyst, SOC, Cloud Security Roles Topic 5:
- Review Checklist, FAQs, and Certification Readiness Topic 6:
- Q&A, Exam Simulation, and Course Wrap-up Reflection & Review:

FAQ:

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

No formal prerequisites are required. However, basic familiarity with IT systems, operating systems, or networking concepts is helpful. This course is designed as a practical entry point into cybersecurity.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session is generally structured to last around 4-5 hours, including breaks. The total course duration spans five days, totaling approximately 20-25 hours of guided instruction.

Why is understanding the shared responsibility model critical in cloud security?

In cloud environments such as AWS or Azure, security responsibilities are divided between the cloud provider and the customer. Misunderstanding this model can lead to critical misconfigurations, such as unprotected data storage or insecure IAM roles, making it vital for learners to grasp this concept early in their cloud security journey.

How This Course is Different from Other Security Essentials Courses:

Unlike generic cybersecurity foundations courses, SEC410: Security Essentials – Network, Endpoint, and Cloud offers a deeply practical, real-world approach to security fundamentals. What makes this course unique is its balanced focus across network security, endpoint protection, and cloud-based defenses, ensuring participants build a truly well-rounded skillset. Rather than relying solely on theoretical concepts, SEC410 incorporates live demonstrations and guided tool-based exercises using real security utilities like Wireshark, PowerShell, and cloud IAM configurations.

Additionally, this course is designed in full alignment with the GIAC GSEC certification framework, helping participants not only understand security concepts but also apply them in exam scenarios and job-related challenges. It also distinguishes itself by bridging the gap between traditional IT security and modern cloud environments, offering up-to-date content on AWS, Azure, and virtualization risks.

فئات الدورات التدريبية

HR TRAINING & DEVELOPMENT

دورات إدارة و تطوير الموارد البشرية

دورات إدارة و تحليل البيانات ودورات علم البيانات

دورات إدارة الجودة وتطوير العمليات

الدورات التدريبية في مجال البيئة والاستدامة

دورات التسويق وإدارة علاقات العملاء وإدارة المبيعات

دورات التدريب القانوني والمشتريات والتعاقدات

دورات الاتصال الجماهيري و السياسات والعلاقات العامة

دورات النظم السبراني ودورات تقنية المعلومات

دورات الصيانة ودورات المجالات الهندسية المتنوعة

دورات الصحة والسلامة والأمن المهني

دورات السكرتارية و إدارة المكاتب

دورات الحوكمة وإدارة المخاطر والامتثال

فئات الدورات التدريبية

دورات معتمدة بشهادة CPD

دورات في مجالات القيادة والإدارة

دورات المهارات الشخصية وتطوير الذات

دورات المحاسبة و التمويل و دورات الإدارة
الهائية

دورات مكتب إدارة المشاريع وإدارة المشاريع
الرشيقية

دورات معتمدة من قبل هيئات دولية

مدن التدريب

اسطنبول - تركيا

أمستردام - هولندا

أنقرة - تركيا

أثينا - اليونان

الرياض - المملكة العربية السعودية

الدوحة - قطر

الدار البيضاء - المغرب

الجبيل - المملكة العربية السعودية

باريس - فرنسا

المنامة - مملكة البحرين

الكويت - الكويت

القاهرة - مصر

براغ - جمهورية التشيك

بانكوك - تايلاند

بالي - جمهورية إندونيسيا

باكو - أذربيجان

مدن التدريب

جاكرتا - جمهورية اندونيسيا

تيليسي - جورجيا

بوكيت - تايلاند

برشلونة - اسبانيا

روما - ايطاليا

دبي - الامارات العربية المتحدة

جوهانسبرغ - جنوب افريقيا

جنيف - سويسرا

شرم الشيخ - مصر

سيول - كوريا الجنوبية

سان دييغو - الولايات المتحدة
الامريكية

زنبار - تنزانيا

طوكيو - اليابان

طشقند - اوزبكستان

طرابزون - تركيا

شيكاغو - الولايات المتحدة
الامريكية

مدن التدريب

كوالالمبور - ماليزيا

فيينا - النمسا

عن بعد - منصة زووم

عمان - المملكة الأردنية الهاشمية

ماربيا - اسبانيا

لندن - المملكة المتحدة

لانكاوي - ماليزيا

كيب تاون - جنوب إفريقيا

ميلان - إيطاليا

مونترال - سويسرا

مسقط - سلطنة عمان

مدريد - إسبانيا

نيس - فرنسا

نيروبي - كينيا

ميونخ - ألمانيا

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
