How This Course is Different from Other Marine Incident Courses:

This course stands out by integrating a complete, policy-driven approach to marine incident response. This course goes beyond basic emergency response by emphasizing equality and diversity in emergency policies and legal references that are often overlooked. With a focus on marine HazMat incidents and CBRN response, it equips participants with specialized skills for high-risk scenarios, such as terrorist threats and hazardous material spills. The course combines strategic incident command training with real-world scenarios, making it ideal for professionals in leadership roles across various marine and offshore industries.
