

AI in Project Management: Automate Tasks, Predict Risks & Boost Efficiency

AI in Project Management: Automate Tasks, Predict Risks & Boost Efficiency

الرجوع: 103600379_55188 التاريخ: 25 - 29 May 2026 الموقع: لندن - Victorya Inn Premier الرسوم: Euro 5700

Course Overview:

Amid rapid technological transformations, modern AI applications have become an inevitable step toward a more efficient and proactive future in project implementation. This course focuses on integrating AI tools into all phases of project management, from planning and scheduling to decision-making and risk prediction. Participants will learn how to use technologies such as machine learning, real-time data analysis, and process automation to improve implementation quality and resource utilization. The course also showcases real-world examples and practical applications, covering key topics such as AI tools for projects, dynamic scheduling, intelligent project management systems, and team interaction.

Target Audience:

- Project Managers and Program Managers
- Operations Managers and Technology Managers
- Data Analysts in Projects
- Project Management Systems Engineers
- Strategic Planning Consultants

Target Departments:

- Project Management Department
- Information Technology Department
- Digital Transformation Department
- Strategic Analysis Department
- Risk Management and Compliance

Target Sectors:

- Government Agencies and Similar Sectors
- Infrastructure and Transportation Sector
- Energy and Industry Sector
- Construction and Building Sector
- IT and Digital Transformation Sector

Course Offerings:

By the end of this course, participants will be able to:

- Integrate AI tools into the project management lifecycle.
- Use dynamic scheduling and resource allocation using AI.
- Apply real-time data analysis techniques to accelerate decision-making.
- Predict and mitigate risks through intelligent forecasting models.
- Improve interaction and communication between work teams.
- Reduce errors and improve efficiency by automating routine tasks.

Training Methodology:

The course relies on a combination of interactive methods, including case studies from real projects, data analysis exercises using simulation tools, and group discussion sessions that enhance interaction and shared experience. A virtual project management simulation will also be used to apply participants' learning in a realistic environment. The methodology aims to enhance practical understanding of concepts such as dynamic scheduling, real-time data analysis, and risk prediction, supporting the translation of theoretical knowledge into real-world practices that enhance organizational performance. Course Tools:

- Case Studies from Saudi Projects
- Real-Time Data Analysis Worksheets
- Dynamic Timelines
- Mind Maps for AI-Powered Decision Making
- Risk Assessment Templates and Response Models

Course Agenda:

Day 1: AI Concepts in Project Management

- AI and Machine Learning Basics in the Project Environment Topic 1:
- The Role of AI Tools in Projects Topic 2:
- Big Data Applications in Planning and Decision Making Topic 3:
- Intelligent Project Management Systems Topic 4:
- AI in Improving Operational Efficiency Topic 5:
- User Experience in AI Projects Topic 6:
- Analyzing Learning Points and Relating Them to Professional Application Review:

Day 2: Intelligent Planning and Dynamic Scheduling

- Basic Concepts of Dynamic Planning Topic 1:
- Scheduling Using AI Topic 2:
- Intelligent Resource Allocation Topic 3:
- Advanced Scenario Analysis Tools Topic 4:
- Project Disruption Prediction and Proposed AI Solutions Topic 5:
- Integrated Planning Using Trello and AI Topic 6:
- Planning Simulation Activity Real-Life Project Review:

Day 3: Risk Management and Real-Time Data Analysis

- Introduction to Risk Foresight Using AI Topic 1: •
- Real-Time Monitoring and Deviation Analysis Tools Topic 2: •
- Proactive Risk Management Topic 3: •
- Automating Risk Response Systems Topic 4: •
- Decision Support Algorithms Topic 5: •
- Intelligent Performance Indicators Assessment Topic 6: •
- Analytical Exercise Using Real Data Review: •

Day 4: Team Interaction and Intelligent Decision Making

- Analyzing Team Sentiments and Interaction Indicators Topic 1: •
- Predicting the Need for Intervention in the Workplace Topic 2: •
- Enhancing Internal Communication Using Data Topic 3: •
- Using Pattern Analysis Tools in Organizational Behavior Topic 4: •
- AI-Based Decision Support Systems Topic 5: •
- Performance Monitoring and Resetting Topic 6: •
- A Model Application for Analyzing a Real-Life Project Team Review: •

Day 5: From Vision to Sustainable Implementation

- Automating Routine Processes and Increasing Efficiency Topic 1: •
- Artificial Intelligence in Financial Forecasting and Control Budgets Topic 2: •
- AI Tools for Reducing Costs and Improving Returns Topic 3: •
- Enhancing Organizational Agility Using Adaptive Intelligence Topic 4: •
- Challenges and Ethical Considerations in Using AI Topic 5: •
- Measuring the Return on AI in Projects Topic 6: •
- Presenting Realistic Improvement Plans Using AI Technologies Review: •

FAQs:

What are the qualifications or requirements for participants before enrolling in the course?

There are no deep technical requirements, but participants should be familiar with project management concepts.

How long is the daily session, and what is the total number of course hours?

Each daily session lasts approximately 4-5 hours, with breaks and interactive activities. The total course duration extends over five days, totaling 20-25 hours.

What is the difference between real-time data analysis and traditional data analysis?

Real-time data relies on real-time monitoring and analysis to make immediate decisions, while traditional data is analyzed after it is collected, leading to delayed response times.

How does this course differ from other courses?

What distinguishes this course is its comprehensive, applied focus on artificial intelligence as an operational and strategic tool in project management. Unlike theoretical or general courses, this course presents real-life Saudi case studies, enhancing practical understanding of the technologies used. The course also features an interactive methodology, including simulations, applied projects, and real-time data analysis exercises.

فئات الدورات التدريبية

HR TRAINING & DEVELOPMENT

دورات إدارة و تطوير الموارد البشرية

دورات إدارة و تحليل البيانات ودورات علم البيانات

دورات إدارة الجودة وتطوير العمليات

الدورات التدريبية في مجال البيئة والاستدامة

دورات التسويق وإدارة علاقات العملاء وإدارة المبيعات

دورات التدريب القانوني والمشتريات والتعاقدات

دورات الاتصال الجماهيري و السياسات والعلاقات العامة

دورات النظم السبراني ودورات تقنية المعلومات

دورات الصيانة ودورات المجالات الهندسية المتنوعة

دورات الصحة والسلامة والأمن المهني

دورات السكرتارية و إدارة المكاتب

دورات الحوكمة وإدارة المخاطر والامتثال

فئات الدورات التدريبية

دورات معتمدة بشهادة CPD

دورات في مجالات القيادة والإدارة

دورات المهارات الشخصية وتطوير الذات

دورات المحاسبة و التمويل و دورات الإدارة
الهائية

دورات مكتب إدارة المشاريع وإدارة المشاريع
الرشيقية

دورات معتمدة من قبل هيئات دولية

مدن التدريب

اسطنبول - تركيا

أمستردام - هولندا

أنقرة - تركيا

أثينا - اليونان

الرياض - المملكة العربية السعودية

الدوحة - قطر

الدار البيضاء - المغرب

الجبيل - المملكة العربية السعودية

باريس - فرنسا

المنامة - مملكة البحرين

الكويت - الكويت

القاهرة - مصر

براغ - جمهورية التشيك

بانكوك - تايلاند

بالي - جمهورية إندونيسيا

باكو - أذربيجان

مسقط - سلطنة عمان

مدريد - إسبانيا

نيس - فرنسا

نيروبي - كينيا

ميونخ - ألمانيا

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
