Course Overview:

The Infrastructure Library for Information Technology ILIT Foundation & Asset Management Practitioner Course is a comprehensive program designed for IT professionals seeking to master modern IT Service Management ITSM frameworks and asset lifecycle practices. This course combines the foundational principles of the ILIT Framework with a practical deep dive into IT Asset Management ITAM, Incident Management, and tool-based service desk operations.

Participants will gain a solid understanding of the ILIT Service Value System SVS, guiding principles, and the lifecycle of IT assets including classification, license management, contract tracking, and compliance strategies. Through real-world scenarios, participants will also explore Incident Response strategies using ManageEngine's ServiceDesk Plus and AssetExplorer platforms.

By the end of the course, attendees will be equipped to apply ILIT best practices with confidence and lead compliant, effective, and value-driven IT service environments.

Target Audience:

- IT Support Specialists and Helpdesk Agents
- IT Operations Managers
- System and Network Administrators
