الدورة التدريبية التخصصية في مجال بحث تجربة المستخدم

المرجع: 36353_76185 التاريخ: 08 - 12 Jun 2027 الموقع: أبوظبي الرسوم: Euro 4500

Course Overview:

-This course equips participants with the essential methods to apply UX research principles for effective, user centered design. It covers key topics like the User Experience Lifecycle, UX Process Models, and Contextual Inquiry, teaching methods to identify user needs and integrate insights into the design process.

Modules on Work Activity Analysis and Design Informing Models help translate user feedback into actionable requirements. Advanced topics such as Mental Models, Embodied Interaction, and User Personas provide a holistic view of design.

Focusing on Prototyping Methods, Heuristic Evaluation, and UX Metrics, the training refines user interfaces while aligning with business objectives. Designed for anyone interested in enhancing user experience, the course includes practical applications, hands-on exercises, and real-world case studies.

Target Audience:

- UX Researchers
- Product Designers
- UX/UI Designers
- Product Managers
- Business Analysts
- Marketing Analysts.

Targeted Organizational Departments:

- Product Design
- Marketing
- Research & Development
- Customer Experience
- Information Technology

Targeted Industries:

- Technology
- E-commerce
- Finance
- Healthcare
- Education
- Telecommunications.

Course Offerings:

By the end of this course, participants will be able to:

- Develop and implement a structured User Experience Lifecycle.
- Conduct Contextual Inquiry UX to gather meaningful user insights.
- Design Affinity Diagrams to organize and interpret UX Data Collection results.
- Construct Interaction Design Requirements and Design Informing Models.
- Apply Heuristic Evaluation UX and Rapid UX Evaluation for iterative improvement.
- Integrate UX Metrics and Goals into the product lifecycle to measure success.

Training Methodology:

This course uses interactive and practical learning to foster collaboration and participation. Real-world case studies illustrate effective UX Process Models and Design Production techniques. Participants will work on group projects about User Personas and Sketching UX Concepts for deeper understanding. Hands-on practice in Prototyping Methods will be complemented by feedback from instructors and peers. This practical approach allows participants to apply their learning immediately.

Course Toolbox:

- ebooks covering UX Practitioner Principles and Embodied Interaction concepts.
- Templates for Affinity Diagram UX, Wireframe Creation, and UX Style Guides.
- Checklists for UX Metrics and Goals tracking and Prototyping Methods selection.
