دورة تدريبية مكثفة للاجتياز اختبار (Cisco) والحصول على شهادة (CCNA) 200-301 بنجاح

المرجع: 36186_79553 التاريخ: 26 Oct - 06 Nov 2026 الموقع: سيول الرسوم: 15000 Euro

CCNA 200-301 Exam Success: Comprehensive Cisco Certification Prep Course Overview:

This comprehensive course is designed to guide participants through the crucial aspects of the CCNA 200-301 exam, offering an in-depth exploration of networking fundamentals, TCP/IP networking, and Ethernet LAN basics. With a focus on practical skills such as switch management, VLANs implementation, and Spanning Tree Protocol, the course equips learners with the knowledge and hands-on experience needed for success in the CCNA certification. From mastering Cisco CLI to delving into the complexities of IPv4 and IPv6 networking, including subnetting and addressing, participants will gain valuable insights into Cisco routers operation and troubleshooting. This course also includes a special emphasis on wireless LANs in CCNA, Cisco Wireless Architectures, and network security, ensuring a comprehensive understanding of modern networking technologies. Additionally, participants will engage in network simulation and practice, preparing them for real-world scenarios.

Target Audience:

This course is ideal for Network Engineers, IT Professionals, Systems Administrators, and anyone aspiring to pass the CCNA exam. Participants looking to deepen their understanding of networking concepts, enhance their troubleshooting skills, or aiming for career advancement in network management will find this course particularly beneficial.

Targeted Organizational Departments:

The IT and Network Management departments will benefit significantly from this course. It addresses the specific skill gaps in areas like network setup, maintenance, security, and efficient operation of Cisco network solutions.

Targeted Industries:

Industries like Telecommunications, IT Consultancy, Network Security, and any business with a significant reliance on network infrastructure will greatly benefit from this course. The ever-evolving network technologies and their importance in business operations make this course essential.

Course Offerings:

Participants will learn about:

- Networking fundamentals and TCP/IP principles.
- Configuring and managing Ethernet LANs.
- Implementing VLANs and understanding the Spanning Tree Protocol.
- Mastering IPv4/IPv6 addressing and subnetting.
- Operating and troubleshooting Cisco routers.
- Understanding OSPF and other routing protocols.
- Setting up and securing wireless LANs.

Training Methodology:

This course utilizes a blend of theoretical learning and practical application, including case studies, group work, interactive sessions, and simulation exercises. The training will be hands-on, with a focus on real-world scenarios, to ensure that participants can apply their learning directly to their work environment. Feedback sessions will be an integral part of the course, allowing for personal and professional development.

Course Toolbox:

Participants will receive resources such as:

- CCNA study guides and exam preparation materials.
- Access to network simulation software.
- Comprehensive workbooks and reading materials.
- Online resources for further learning.
- Checklists and templates for network management.

Course Agenda:

Day 1: Introduction to Networking and TCP/IP

- Overview of TCP/IP Networking and its Historical Development Topic 1:
- Examining the TCP/IP Networking Model Topic 2:
- Delving into TCP/IP Application and Transport Layers Topic 3:
- Understanding Internet Protocol and IP Addressing Basics Topic 4:
- Comparing OSI and TCP/IP Models Topic 5:
- Recap of TCP/IP Networking Fundamentals and Model Comparisons Reflection & Review:

Day 2: Ethernet LANs and WAN Fundamentals

- Basics of Ethernet LANs and Physical Layer Standards Topic 1: •
- Understanding Ethernet Data-Link Protocols and Addressing Topic 2: •
- Exploring WAN Technologies and IP Routing Topic 3: •
- Ethernet WANs and Leased-Line WAN Concepts Topic 4: •
- Network Layer Routing Logic and Features Topic 5: •
- Review of Ethernet LANs and WAN Fundamentals Reflection & Review: •

Day 3: Cisco CLI and Ethernet Switching

- Navigating the Cisco Command-Line Interface CLI Topic 1: •
- Accessing and Configuring the Cisco IOS CLI Topic 2: •
- Analyzing Ethernet LAN Switching Concepts Topic 3: •
- Learning MAC Addressing and Frame Forwarding Topic 4: •
- Switch Interface Configuration and Verification Topic 5: •
- Recap of CLI Usage and Ethernet Switching Analysis Reflection & Review: •

Day 4: VLAN Implementation and Management

- Implementing Ethernet Virtual LANs VLANs Topic 1: •
- VLAN Tagging and Trunking Protocols Topic 2: •
- Configuring Basic Switch Management Topic 3: •
- VLAN and VLAN Trunking Configurations Topic 4: •
- Troubleshooting VLANs and VLAN Trunks Topic 5: •
- Review of VLAN Concepts and Configuration Techniques Reflection & Review: •

Day 5: Advanced Switching and STP Concepts

- Advanced Ethernet LAN Switching Strategies Topic 1: •
- Spanning Tree Protocol STP and Rapid STP RSTP Basics Topic 2: •
- Implementing and Configuring STP and RSTP Topic 3: •
- EtherChannel Configuration and Management Topic 4: •
- Optional STP Features and EtherChannel Load Distribution Topic 5: •
- Recap of Advanced Switching Concepts and STP Reflection & Review: •

Day 6: Mastering IPv4 Addressing and Subnetting

- Perspectives on IPv4 Subnetting Topic 1: •
- Analyzing Classful IPv4 Networks Topic 2: •
- Understanding and Analyzing Subnet Masks Topic 3: •
- Techniques for Analyzing Existing Subnets Topic 4: •
- Design and Implementation of IPv4 Addressing Topic 5: •
- Review of IPv4 Addressing and Subnetting Techniques Reflection & Review: •

Day 7: IPv4 and IPv6 Routing Operations

- Operating Cisco Routers for IPv4 Networks Topic 1: •
- Configuring IPv4 Addresses and Static Routes Topic 2: •
- Fundamentals of IP Version 6 IPv6 Topic 3: •
- IPv6 Addressing Formats and Conventions Topic 4: •
- Implementing IPv6 Addressing on Routers Topic 5: •
- Recap of IPv4 and IPv6 Routing Concepts Reflection & Review: •

Day 8: Wireless Networks and Security

- Fundamentals of Wireless Networks Topic 1: •
- Analyzing Cisco Wireless Architectures Topic 2: •
- Securing Wireless Networks Topic 3: •
- Building and Managing a Wireless LAN Topic 4: •
- Introduction to Wireless Bands and Channels Topic 5: •
- Review of Wireless Networking Concepts and Security Reflection & Review: •

Day 9: OSPF Protocols and Advanced Routing

- Understanding OSPF Concepts and Operations Topic 1: •
- Implementing Single-Area and Multiarea OSPF Topic 2: •
- OSPF Network Types and Neighbor Relationships Topic 3: •
- Implementing IPv6 Routing and Addressing Topic 4: •
- Troubleshooting and Optimizing OSPF Networks Topic 5: •
- Review of OSPF and Advanced Routing Techniques Reflection & Review: •

Day 10: Course Wrap-Up and Exam Preparation

- Comprehensive Review of Course Topics Topic 1: •
- Final Assessment and Exam Preparation Strategies Topic 2: •
- Simulation and Practical Application of Learned Skills Topic 3: •
- Networking Trends and Future Learning Paths Topic 4: •
- Q&A Session and Clarification of Doubts Topic 5: •
- Final Reflections and Next Steps Post-Course Reflection & Review: •

How This Course is Different from Other CCNA Exam Certification Prep Courses:

This course stands out for its holistic approach to CCNA exam preparation, blending theoretical knowledge with practical application. Unlike other courses, it provides in-depth training on both IPv4 and IPv6 networking, alongside comprehensive Cisco CLI training. The course offers unique network simulation and practice sessions, allowing participants to gain hands-on experience in a controlled environment. The inclusion of current trends in wireless networking and security further enriches the learning experience, making it an unparalleled resource for those seeking CCNA certification.

فئات الدورات التدريبية

HR TRAINING & DEVELOPMENT

دورات إدارة و تطوير الموارد البشرية

دورات إدارة و تحليل البيانات ودورات علم البيانات

دورات إدارة الجودة وتطوير العمليات

الدورات التدريبية في مجال البيئة والاستدامة

دورات التسويق وإدارة علاقات العملاء وإدارة المبيعات

دورات التدريب القانوني والمشتريات والتعاقدات

دورات الاتصال الجماهيري و السياسات والعلاقات العامة

دورات الذهن السيبراني ودورات تقنية المعلومات

دورات الصيانة ودورات المجالات الهندسية المتنوعة

دورات الصحة والسلامة والذهن المهني

دورات السكرتارية و إدارة المكاتب

دورات الحوكمة وإدارة المخاطر والامتثال

AGILE LEADERS
Training Center

فئات الدورات التدريبية

دورات معتمدة من قبل هيئات دولية

دورات في مجالات القيادة والإدارة

دورات المهارات الشخصية وتطوير الذات

دورات المحاسبة و التمويل و دورات الإدارة
المالية

دورات مكتب إدارة المشاريع وإدارة المشاريع
الرشيقة

WHO WE ARE

Agile Leaders is a renowned training center with a team of experienced experts in vocational training and development. With 20 years of industry experience, we are committed to helping executives and managers replace traditional practices with more effective and agile approaches.

OUR VISION

We aspire to be the top choice training provider for organizations seeking to embrace agile business practices. As we progress towards our vision, our focus becomes increasingly customer-centric and agile.

OUR MISSION

We are dedicated to developing value-adding, customer-centric agile training courses that deliver a clear return on investment. Guided by our core agile values, we ensure our training is actionable and impactful.

WHAT DO WE OFFER

At Agile Leaders, we offer agile, bite-sized training courses that provide a real-life return on investment. Our courses focus on enhancing knowledge, improving skills, and changing attitudes. We achieve this through engaging and interactive training techniques, including Q&As, live discussions, games, and puzzles.
