دورة تدريبية في إدارة سلامة العمليات في الصناعات عالية المخاطر

المرجع: 103600352_35627 التاريخ: 02 - 06 Mar 2027 الموقع: دبي الرسوم: Euro 4500

Course Overview:

The course is designed to equip professionals with the essential skills and knowledge required to pass the NEBOSH Process Safety Management PSM exam and manage safety risks effectively in high-hazard -environments. Drawing directly from the official NEBOSH HSE Certificate syllabus and structured to address real world challenges across oil and gas, chemical, and manufacturing industries, this course integrates intensive exam preparation strategies, risk control methods, and applied safety systems.

Participants will delve into key topics such as process safety management systems, contractor safety management, emergency response planning, static electricity hazard control, and the FARSI model for safety-critical equipment. With modules rooted in UK and international safety regulations, learners will gain a robust understanding of process hazard identification HAZID, Bowtie analysis, permit-to-work systems, thermal runaway prevention, and ALARP principles.

Target Audience:

- HSE Managers and Supervisors
- Process Safety Engineers
- Health and Safety Consultants
- Maintenance Managers
- Site Operation Managers
- Safety Trainers and Advisors
- Industrial Risk Specialists

Targeted Organizational Departments:

- Health, Safety & Environment HSE
- Production and Operations
- Risk Management & Compliance
- Engineering & Maintenance
- Chemical Safety Units
- Process Safety Leadership Teams

Targeted Industries:

- Oil and Gas
- Chemical Manufacturing
- Petrochemicals
- Pharmaceutical Production
- Industrial Processing Plants
- Food and Beverage Manufacturing
- Utilities and Power Generation

Course Offerings:

By the end of this course, participants will be able to:

- Interpret and apply the NEBOSH PSM syllabus to real industry scenarios
- Identify and control process safety hazards
- Implement process safety management systems effectively
- Apply ALARP principles to reduce risk to acceptable levels
- Analyse shift handovers, permit-to-work systems, and contractor safety plans
- Develop performance indicators leading and lagging for process safety
- Design emergency response plans aligned with COMAH standards

Training Methodology:

This course utilises a dynamic mix of practical, interactive, and theoretical learning strategies designed for adult professionals. Participants will engage in hands-on case studies drawn from real process industry incidents to simulate hazard identification HAZID, Bowtie analysis, and FMEA exercises. Daily group work, role-play simulations, and instructor-led discussions on fire protection systems, emergency planning, and static electricity hazards help reinforce theoretical content with real-world relevance.

Course Toolbox:

- NEBOSH PSM Study Guide digital
- Process Safety Management Templates
- HAZID and HAZOP Worksheets
- FARSI Performance Standards Checklist
- Recommended Reading List from NEBOSH and HSE
- Online Case Studies and Reference Links

Course Agenda:

Day 1: Process Safety Foundations & Leadership

- Introduction to NEBOSH Process Safety Management and syllabus overview Topic 1: •
- Understanding the difference between process safety and personal safety Topic 2: •
- Leadership responsibilities and the development of safety culture Topic 3: •
- Organisational learning from incidents, benchmarking, and knowledge management Topic 4: •
- Managing organisational change and its implications on safety Topic 5: •
- Worker consultation and contractor engagement principles Topic 6: •
- Discussion on leadership-driven safety improvements and lessons learned Reflection & Review: •

Day 2: Managing Process Safety Risk

- Establishing and implementing a Process Safety Management System PSMS Topic 1: •
- Risk assessment techniques and the ALARP principle in practice Topic 2: •
- Hazard identification and risk analysis tools: HAZID, HAZOP, Bowtie, FMEA Topic 3: •
- Asset integrity management and preventive maintenance strategies Topic 4: •
- Safe systems of work and permit-to-work procedures Topic 5: •
- Best practices in shift handovers and maintaining operational continuity Topic 6: •
- Real-world case review of process risk mitigation techniques Reflection & Review: •

Day 3: Hazard Control and Operational Safety

- Writing and maintaining effective operating procedures Topic 1: •
- Safe plant start-up, shutdown, and alarm system protocols Topic 2: •
- Safety critical equipment performance and the FARSI model Topic 3: •
- Utilities management: steam, water, and inert gases in process industries Topic 4: •
- Electricity and static electricity hazard control Topic 5: •
- Evaluating and managing contractor safety responsibilities Topic 6: •
- Group workshop on operating hazards and safety interventions Reflection & Review: •

Day 4: Chemical Hazards, Bulk Storage, and Control Measures

- Physical and chemical properties of dangerous substances Topic 1: •
- Thermal runaway reactions: causes, consequences, and containment strategies Topic 2: •
- Safe practices for bulk storage tanks and bunding systems Topic 3: •
- Siting and fire protection for storage facilities Topic 4: •
- COMAH regulations and compliance practices Topic 5: •
- Warehouse safety: segregation, ignition control, and weather protection Topic 6: •
- Application of chemical hazard control through simulated scenarios Reflection & Review: •

Day 5: Fire and Explosion Risk, Emergency Response, and Exam Prep

- Fire triangle, ignition sources, and explosion types in process industries Topic 1: •
- Fire detection systems and passive versus active protection methods Topic 2: •
- Dust explosion prevention, suppression, and zoning regulations Topic 3: •
- Emergency planning: roles, resources, and regulatory alignment Topic 4: •
- Public communication, evacuation, and table-top response drills Topic 5: •
- NEBOSH PSM mock exam walkthrough and key exam-taking strategies Topic 6: •
- Final summary, Q&A, and participant feedback Reflection & Review: •

FAQ:

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

While there are no formal prerequisites, it is recommended that learners have a foundational understanding of occupational safety and health. Prior NEBOSH General Certificate is a plus but not mandatory.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day's session is generally structured to last around 4-5 hours, with breaks and interactive activities included. The total course duration spans five days, approximately 20-25 hours of instruction.

What is the FARSI model and how is it applied in safety-critical systems?

The FARSI model Functionality, Availability, Reliability, Survivability, Interdependency helps evaluate and maintain the integrity of safety-critical systems and equipment, particularly in preventing catastrophic process failures.

How This Course is Different from Other NEBOSH PSM Exam Prep Courses:

This course stands apart by delivering a high-intensity, results-oriented learning journey that not only prepares -candidates for the NEBOSH Process Safety Management exam but also strengthens their ability to manage real world safety risks across hazardous industries. Unlike typical PSM courses, this program offers deeper insights into process hazard identification, fire and explosion risk mitigation, and safety case development aligned with COMAH requirements. The use of scenario-based workshops HAZOP, Bowtie, FMEA and hands-on exercises allows learners to practice complex decision-making under realistic constraints.

فئات الدورات التدريبية

الدورات التدريبية في مجال البيئة والاستدامة	دورات إدارة الجودة وتطوير العمليات
دورات إدارة و تحليل البيانات ودورات علم البيانات	دورات إدارة و تطوير الموارد البشرية
دورات الذهن السيرياني ودورات تقنية المعلومات	دورات الاتصال الجماهيري و السياسات والعلاقات العامة
دورات التدريب القانوني والهشتريات والتعاقدات	دورات التسويق وإدارة علاقات العملاء وإدارة المبيعات
دورات الحوكمة وإدارة المخاطر والامتثال	دورات السكرتارية و إدارة المكاتب
دورات الصحة والسلامة والذهن المهني	دورات الصيانة ودورات المجالات الهندسية المتنوعة
دورات المحاسبة و التهويل و دورات الإدارة المالية	دورات المهارات الشخصية وتطوير الذات
دورات في مجالات القيادة والإدارة	دورات معتمدة من قبل هيئات دولية
دورات مكتب إدارة المشاريع وإدارة المشاريع الرشيقية	

معدن التدريب

أكرا غانا	أثينا اليونان	أبوظبي الإمارات العربية المتحدة
الجبيل المملكة العربية السعودية	استنبول تركيا	أهستردام هولندا
الرياض المملكة العربية السعودية	الدوحة قطر	الدار البيضاء المغرب
المنامة مملكة البحرين	الكويت الكويت	القاهرة مصر
بانكوك تايلند	باكو أذربيجان	باريس فرنسا
برلين ألمانيا	برشلونة إسبانيا	براغ جمهورية التشيك
تيليسي جورجيا	بوكيت تايلاند	بورتو البرتغال
جنيف سويسرا	جاكارتا جمهورية إندونيسيا	تورنتو كندا
روما إيطاليا	دبي الإمارات العربية المتحدة	جوهانسبرغ جنوب أفريقيا
سنغافورة سنغافورة	سان دييغو الولايات المتحدة الأمريكية	زنجان تنزانيا
شيكاغو الولايات المتحدة الأمريكية	شرم الشيخ مصر	سيول كوريا الجنوبية
طوكيو اليابان	طشقند أوزبكستان	طرابزون تركيا
فرانكفورت ألمانيا	عن بعد منصة زووم	عمان المملكة الأردنية الهاشمية
